

Hello Julie,

Here are the pages from the CEC 2013 Residential appendence discussing the sampling process. I hope this helps and if you need any further help or want me to express any additional thoughts or ideas specific to how I think this could work let me know. With so many agencies not enforcing this it wasn't widely practiced over the past five years but our division was one of few in this area actually doing it. I feel I have a pretty good sense for the road blocks we faced and how useful 100% auditing wasn't.

Take care Julie and may I say great job on all of this. When I speak to some of the irrigation professionals in our industry they all hold you in a very high regard.
